VOLUME 2, ISSUE 1

JANUARY 2010

Remodels & Additions

Let Armstrong remodel your current home

In today's real estate market, it may not be feasible for you to sell your current home and build new. Or, you may love your current home's location and do not want to move, but wish you could update the kitchen, master bath, or add on an existing room.

Armstrong can take care of all of your remodel/additions needs. We would be happy to go out and look at your current home and then work with you to design the changes you desire.

Click [here](#) for a step by step look at the remodel process.

Why remodel? A brand new kitchen or upgraded luxury bathroom will increase your enjoyment of your home and also increase the value! Also, replacing older components in the

home such as outdated windows with new energy efficient windows not only increases the resale of your home, but will lower your energy costs as well.

Adding a garage w/ an apartment above is a great way to add functional space and increase your homes value!

Some projects that add instant value to your home include: adding a garage, adding a fireplace, moving your laundry room out of

the basement, or adding an extra bathroom.

With Armstrong, you will be provided peace of mind, knowing your home is in the hands of professionals who have been remodeling homes for decades. We also understand the need for you to live in your home as it is being worked on, and will respect your wishes.

Please contact us via the [web](#) if you have any questions, or email me at:
