## Armstrong Window Replacement Services

### Hurry to take advantage of \$1500 in tax credits!

Did you know that Armstrong Homes provides window replacement services? We do, and now is the PERFECT time to take advantage of these services.

You only have a few months left in the year to take advantage of the 2009 American Recovery and Reinvestment Act which provides you up to a \$1500 tax credit for increasing efficiency. Details of the program can be found at [EnergyStar](#).

Besides this year's tax savings, replacing your old windows provides long term efficiency savings. Recent studies from EnergyStar have shown that replacing older single paned windows in the Northwest saves you an average of **\$460/year!** Even replacing clear double paned windows will

save you an average of \$56/year.

In addition to the energy savings, new windows add value to your home and increase the curb appeal when it's time to build new!

**New windows not only look great, they also increase your safety and security, and reduce outside noise!**

Armstrong is proud to offer high quality windows from manufacturer's such as [Jeld-Wen Windows](#), and [Milgard Windows](#),

With Armstrong's [remodel services](#), we can also add new windows to areas of your home that will take advantage of natural sunlight or a great view.

Whether you are just looking to replace older windows, or are thinking about adding new windows to increase your enjoyment of a room, Armstrong is the answer.

Don't forget to act now! If you have any questions, please visit [www.armstrong-homes.com](http://www.armstrong-homes.com) or you can email me at:
