

Project of the Month

Mr. Adams wanted to build a house on a lot he purchased in Bellevue. The house is for resale and to make that possible, he chose to use our Owner/Builder Program. Armstrong built the shell and, using our subcontractors, Mr Adams managed the completion of the home under the supervision of our Superintendent, Jim.

Redmond Office

The Adams house...
Bellevue
Built under our
Owner/Builder Program

A word from Mr. Adams...

The team at Armstrong are extremely easy to work with and professional. The work they do is excellent and I would recommend them as quality builders having built a number of homes in other parts of the world. Their owner builder program should really be called owner saves money!! Jim, Rich and team make the process so easy that anybody could use it. Thanks Armstrong for having such a simple way to save money without compromising on quality, would have no hesitation in recommending you guys and look forward to future working together.
